**The LimbO Waterproof Protector**  
Helps patients to shower and bathe whilst keeping their plaster casts, dressings or PICC lines dry. The LimbO is simple and safe to use, reliable and recommended with confidence by healthcare professionals.

**Key benefits according to clinicians:** *For the patients: personal hygiene bathing or showering, which makes them feel better, plus ease of obtaining. Benefits for the clinicians: as patients feel better, their mood improves and compliance is much better.*

Lynn Coyne, Plastic Surgery Nurse Specialist, NHS Fife

**Clinicians who actively suggest LimbO by name:**

**96%**

Data: LimbO Clinicians' Survey Jan 2020. Total sample 169 clinicians. Response rate 16.6%

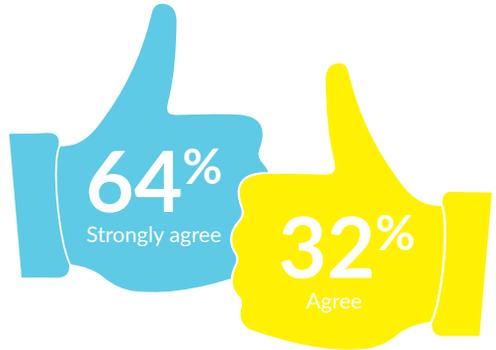

*I have been supplying your leaflets to patients with regard to ordering LimbO since you started manufacturing them. This is an excellent product which does precisely what it has been produced for.*

John Hopson, Senior Orthopaedic Practitioner, Solihull Hospital (University Hospitals Birmingham)

Using LimbO helps reduce the need for replacing plaster casts, dressings, bandages or PICC lines and avoids complications through getting limbs wet.

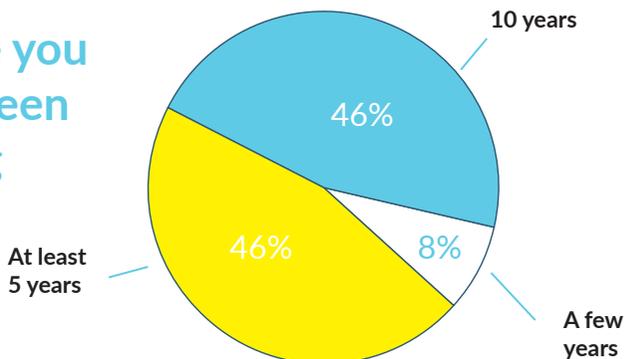

*The neoprene seal on the LimbO is far superior to that of other cast protectors which still tend to leak.*

Lesley McNicol, Senior Charge Nurse, OOPD & Plaster Room, Ninewell's Hospital Dundee

**How long have you or your team been recommending LimbO?**

Data: LimbO Clinicians' Survey Jan 2020.  
Total sample 169 clinicians. Response rate 16.6%

Since we have been using the LimbO sleeves for our PICC patients we have had fewer PICCs falling out and our infection numbers have fallen.

Meinir Hughes, Intravenous Access Nurse Specialist, Velindre NHS Trust

## What did you suggest for waterproof protection before you heard about the LimbO?
